A BSc Computer Science (Systems Engineering) student with experience as a BI trainee. Developed skills in data analysis and visualisation using Power BI and Talend. Technical expertise includes software development as well as web development technologies. Possesses knowledge in blockchain development and embedded programming for robotics. Consistently recognised for academic excellence with multiple rankings at national level, demonstrating strong analytical thinking, problem-solving abilities, and commitment to excellence. Eager to continue professional development and contribute meaningfully to innovative data analysis projects.

SKILLS

- Power BI
- ETL Processing (Talend)
- Programming (Python, C, C++, Dart)
- Web Development (HTML, CSS, JS, VueJS, NodeJS, Tailwind CSS)
- Database(Firebase, MongoDB, SQL)
- Robotics
- Blockchain Development
- Bash/Batch scripting
- Problem Solving
- Communication
- Project Management

WORK EXPERIENCE

WINNERS | May 2024 - August 2024

Business Intelligence (BI) Intern

- Engaged with stakeholders to gather requirements and identify relevant data sources
- Used SQL to query, clean, and transform data for BI dashboards.
- Created ETL pipelines to extract, transform, and load data using Talend
- Developed Power BI dashboards based on stakeholder requirements
- Optimised BI dashboards using DAX Studio to reduce load time increase efficiency
- Trained in data warehousing concepts and worked on data warehouse project using Snowflake.
- Debugged existing Java code and improved performance of Talend scripts.

PROJECTS

MIDDLESEX UNIVERSITY'S

EMPLOYABILITY SERVICE WEBSITE | Present

- A website to manage job applications, user applications, and company job postings.

OIA ROBOT | 2024

- A robotic arm for playing rock paper scissors.

TETRIS GAME | 2023

- The traditional tetris game using HTML, CSS & Javascript

VENDING MACHINE ROBOT | 2024

- A vending machine built using Arduino, Esp32 cam along with QR code detection.

PACMAN GAME | 2023

- An enhanced version of the classic Pac-Man game, along with a flappy bird mini game using Python

EDUCATION

COMPUTER SCIENCE & SYSTEMS ENGINEERING | BSc

Middlesex University Mauritius | 2023-Present

GPA 4.0 | Expected Completion: April 2025
